-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. This application is in condition for allowance except for the following formal matters:

Please see the following statement.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

2. The drawings are objected to because numeral 99 for side wall is not in the drawing. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner,

Art Unit: 2837

the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

3. Claims 4 and 14 are objected to because of the following informalities:

Claim 4 is recited to depend on claim 4.

The numerals in claim 14 are not part of the claim. They should be deleted or being put in parentheses. Further, line 10, "lower" should be "upper"

Appropriate correction is required.

4. Claims 1-14 are allowed.

5. The claims are allowable over the prior art for at least the reason that the prior art fails to reasonably teach or suggest in claim 1 that an upper pad including a rearward extending lip that partially extends around said upper angled edge and prevents said upper metal rod on said clamping element from contacting said upper angle edge of said string instrument, and a lower pad including a rearward extending lip structure that prevents said lower metal rod on said clamping element from contacting said lower angled edge of said string instrument, and in claim 14 that the steps of selecting an upper pad including a rearward extending lip structure that prevents said upper metal rod on said clamping element from contacting said upper angled edge of said string instrument, and selecting a lower pad including a rearward extending lip structure that

prevents said lower metal rod on said clamping element from contacting said lower angled edge of said string instrument as set forth in the claimed combination.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shih-yung Hsieh whose telephone number is 571-272-2065. The examiner can normally be reached on 7:00-3:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Martin can be reached on 571-272-2107. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
